PRODUCT DESCRIPTION

Designer: Pio & Tito Toso

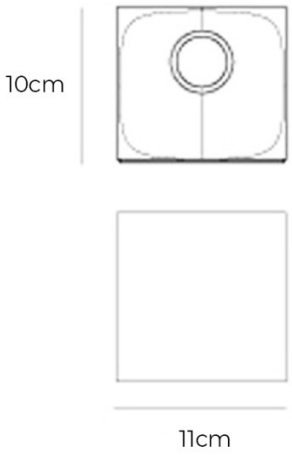

Artemide Aede LED Wall Light

Designed by Pio & Tito Toso, the Artemide Aede Wall Light is a simplistic and minimalist light that can be utilised in many settings. In a glossy white finish, the wall light has a cubed form made from aluminium, whilst the integrated LED light source is long-lasting and efficient, providing a downward-directed glow.

The Aede Wall Light can be used in residential or commercial settings, such as kitchens, hallways and offices, to provide much-needed illumination. You can use it to line corridors, highlight certain aspects of a space, or create a subtle ambience in the room. The Artemide Aede Wall Light is dimmable, so you can create the atmosphere you need, and the small size makes it perfect to use alone in small spaces or multiples in larger rooms.
