PRODUCT DESCRIPTION

Designer: Luca Nichetto

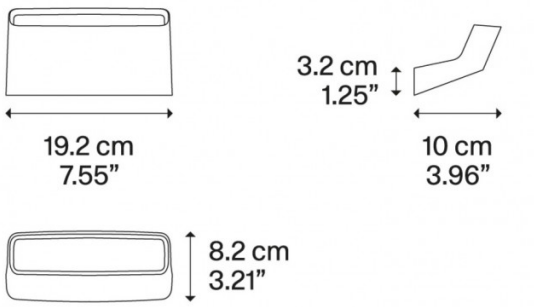

Lodes Aile LED Wall Lamp

Designed by Luca Nichetto, the Aile wall light takes its name and shape from ailerons that are usually seen on sports cars. The Aile's lightweight body is made from aluminium and boasts a streamlined design that has a dynamic and clean appearance. The compact size of the Aile adds to the light's versatility, suiting both large and small spaces.

The Aile wall lamp is available in 4 finishes and provides a powerful glow that emanates upwards and outwards while bathing the surrounding wall in a warm light. The diffused nature of the light means it can be used for bright illumination or to create a cosy ambience. With dimmable capabilities, users can create the exact atmosphere needed in the space. Install in offices, homes or professional settings for a sleek and subtle lighting solution.
