Lodes Easy Peasy LED Portable Lamp

The Easy Peasy LED Portable Lamp was created by Italian designer Luca Nichetto. The series features sculptural bell-shaped forms, reminiscent of a set of dolls. Named after the lamp's strong personality and humorous spirit, the design adds warmth and character to any environment. Each lamp comprises a metal base, a white methacrylate diffuser, and a blown-glass shade. A rounded pommel at the top of the lamp can be rotated to switch the lamp on or off, as well as to utilise the dim-to-warm function (from 2700K to 3300K).

When illuminated, the Easy Peasy creates soft, glare-free lighting for a warm and comfortable glow, perfect for creating a cosy atmosphere. Its cordless design allows the lamp to be transported easily throughout the home. Charge via the micro-USB socket at the base to bring an intimate and familiar atmosphere wherever it's required. Available in four variants, Chestnut, Flamingo, Kelp, and Lagoon, the Easy Peasy Portable Lamp is a lively companion that will warm any room and fill it with a playful spirit.
