PRODUCT DESCRIPTION

Designer: Elemental

Artemide Architectural "O" LED Outdoor Suspension

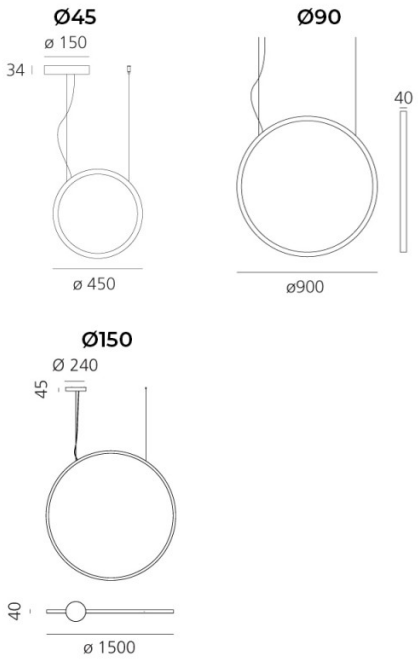

A graphic ring that appears to float, “O” Suspension uses a slim aluminium profile with LEDs set to the inner edge for soft, comfortable illumination, ideal for reception desks, gallery circulation and dining zones. Fine twin wires keep the visual presence light while ensuring stability and easy height setting.

Offered in Ø45 / Ø90 / Ø150, the family supports sensor options and App-compatible control for scene setting and time-based dimming. Install as a single focal point or repeat along axes to create rhythm and orientation within larger volumes, CRI 90 output helps finishes read faithfully.

As the official UK distributor, we can support you with the Artemide configurator and specification. Contact us at artemide@davidvillagelighting.co.uk.
