## PRODUCT DESCRIPTION

**Designer:** Ernesto Gismondi

### Artemide Nur Acoustic LED Pendant

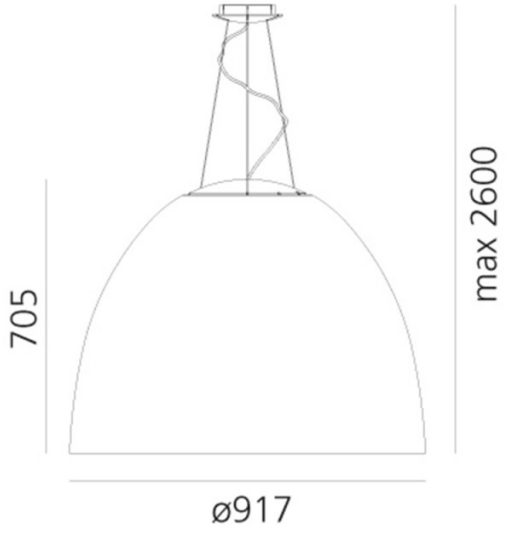

Artemide Nur Acoustic LED Pendant reworks the bestselling Nur as an acoustic version, keeping the bell-shaped body while adding ambient sound control. Designed by Ernesto Gismondi, it uses a special material that absorbs sound waves and reduces their reverberation time, with the body's geometry helping to trap and absorb sound within.

The fitting still works first as light. A white inner surface helps the selected colours carry the illumination well, while the integrated LED provides general lighting at 3000K. What changes is the role of the shade, which now contributes to the room's atmosphere in more than one way.

Artemide Nur Acoustic LED Pendant is available in Grey and White, with a PET body and integrated LED source. It brings the Nur silhouette into interiors where sound and light need to be considered together, rather than separately. Best suited for dining areas, open-plan living spaces, meeting rooms, and other interiors where a pendant can provide general lighting while helping to soften the acoustic environment.

## PRODUCT SPECIFICATION

| | |
|---|---|
| **Light Source:** | 80W, 3000K, 6151 Lumens |
| **IP Code:** | 20 |
| **Dimming:** | Push to make/switch dimming, dimmable using push-to-make switches. Please consult your electrician; additional wiring may be required on-site. |
| **Dimensions:** | Height: 70.5cm<br>Shade: Ø91.7cm<br>Cable Length: 260cm |
