PRODUCT DESCRIPTION

Designer: Charlotte Perriand

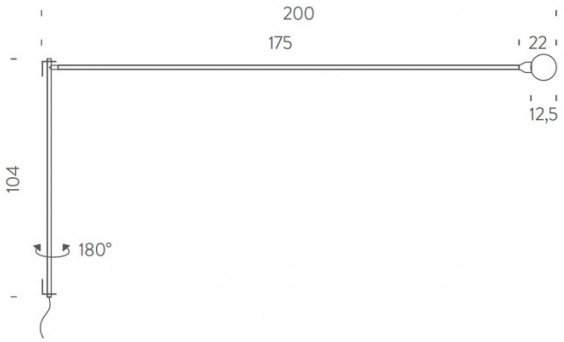

Potence Pivotante Wall Light by Nemo Lighting

The Potence Pivotante wall lamp was designed by Charlotte Perriand, who designed by the philosophy of function and minimalism. This wall light has a sleek aesthetic and a perpendicular design made from black painted aluminium. The bulb sits simply on the end of the arm, emitting a warm illumination.

The arm can move and pivot around the wall base 180° so you can direct the light where needed. The larger size makes it suitable as an ambient light or a reading/task light, perfect for many settings. Use in homes and professional spaces for an effective and useful wall lamp.
