PRODUCT DESCRIPTION

Designer: Michael Anastassiades

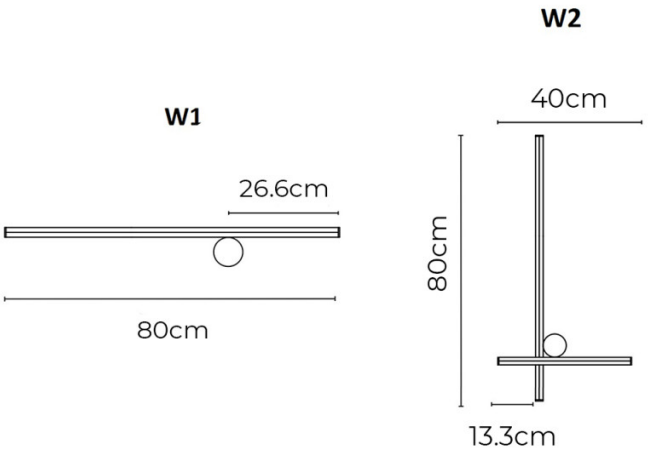

Flos Coordinates LED Wall Light

The newest addition to the **Flos Coordinates collection**, the Flos Coordinates Wall Light was designed by Michael Anastassiades. Available in chic anodised champagne or argent colour finish, Coordinates can adapt to a variety of contemporary interiors and add a sleek touch of modern minimalism to your interior. The integrated LED light source is fitted into the structure and is concealed by a diffuser, producing a glare-free and soft glow that is emitted onto the wall and reflected back into the room to provide an indirect illumination.

The Coordinates LED Wall Lamp is available in 2 versions, the W1, which is a simple bar and the W2, which has a cross pattern. Both versions can sit on the wall horizontally or vertically, so you can make the best use of your space. The elegant colour and the geometric aesthetic make this wall lamp a beautiful addition to any setting and will provide an eye-catching and useful function for both residential and commercial spaces.
