PRODUCT DESCRIPTION

Designer: Achille Castiglioni & Pier Giacomo Castiglioni

Flos Arco Floor Lamp

The Arco floor lamp was designed by Achille Castiglioni and his brother, Pier Giacomo, in 1962. This iconic lamp is still contemporary and has a white-marble base and a satin finish stainless steel telescopic arm, producing an eye-catching and innovative unique aesthetic. The shade is made from pressed and polished aluminium with a swivelling, adjustable reflector, which means you can direct the light exactly where you need it.

The Arco floor light is perfect for many settings and can be used as a reading or task light or to create a nice ambience in the room. This floor lamp will look wonderful in lounges, offices, dining rooms and more in the home and also at work to add a classic and modernistic touch. This iconic version of the Flos Arco takes an LED E27 light bulb with a maximum of 11W. An **integrated LED version of the Flos Arco** with a dimmer is also available.
