PRODUCT DESCRIPTION

Designer: Charlotte Perriand

Nemo Lighting Applique à Volet Pivotant LED Wall Light

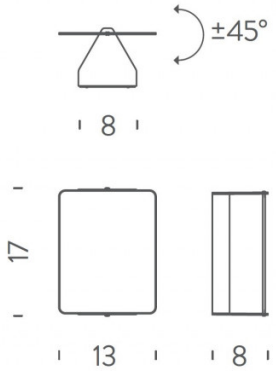

The Applique à Volet Pivotant LED Wall Light was originally designed by Charlotte Perriand for her mountain chalet in 1962. This is an LED version of the **Applique à Volet Pivotant Wall Light**, featuring an integrated LED for an energy-efficient and long-lasting light. When illuminated, it casts an indirect light towards the wall for a warm and comfortable ambience. Its tiltable frame allows users to adjust the direction of the light to suit any setting.

With an IP rating of 54, the Applique à Volet Pivotant LED Wall Light is suitable for use in bathrooms, wetrooms, and exterior environments. Display individually, in pairs, or in rows to illuminate a hallway or garden path. The front plate is available in a range of finishes, allowing the fixture to blend seamlessly into minimalistic interiors or provide a splash of colour and a bold accent to residential or commercial environments.

The Applique à Volet Pivotant LED Wall Light is also available in a white or polished inox finish. Please contact us for more information and pricing.
