PRODUCT DESCRIPTION

Designer: Charlotte Perriand

Nemo Lighting Applique à Volet Pivotant Double Wall Light

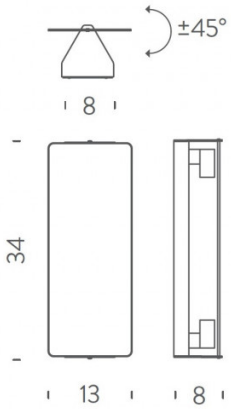

The Applique à Volet Pivotant Double Wall Light was designed by Charlotte Perriand in 1962 for her chalet in the French Alps. The design reflects Perriand's style, which blends function and minimalism for timeless luminaires. The simple, geometric form of the Applique à Volet Pivotant Double Wall Light complements a range of interiors, feeling as at home in contemporary homes as when it was first created.

The Applique à Volet Pivotant Double Wall Light provides comfortable, indirect lighting. When illuminated, it bathes the surrounding wall in a warm glow. The metal frame is tiltable, allowing users to easily adjust the direction of light output. Install individually, in pairs, or in clusters with other pieces from the **Applique à Volet Pivotant Collection** to create dynamic displays. Available in a wide range of finishes, the Applique à Volet Pivotant Double Wall Light can blend seamlessly into minimalistic interiors or add a splash of colour to residential or commercial spaces.

The Applique à Volet Pivotant Double Wall Light is also available in a white or polished inox finish. Please contact us for more information and pricing.
