PRODUCT DESCRIPTION

Designer: Charlotte Perriand

Nemo Lighting Applique à Volet Pivotant Double LED Wall Light

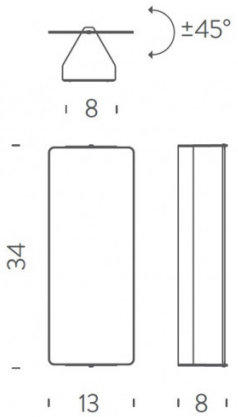

The Nemo Lighting Applique à Volet Pivotant Double LED Wall Light is part of the **Applique à Volet Pivotant Collection**, a series characterised by its simple, geometric design. The wall lamp was designed in 1962 by Charlotte Perriand, an iconic French designer renowned for creating timeless pieces that feel as at home in modern interiors as when they were first produced.

This version of the Applique à Volet Pivotant Double Wall Lamp has an integrated LED, for long-lasting and energy-efficient lighting. When illuminated, it casts light towards the wall, bathing the surface in a warm glow. The metal structure can be tilted to easily adjust the angle of the light output. The Applique à Volet Pivotant can be installed horizontally or vertically to fit its surroundings, making it suitable for framing doorways, lining hallways, or highlighting a piece of art on a gallery wall. Available in a selection of finishes, the wall light can complement minimalist spaces or add a splash of colour to residential or commercial interiors.

The Applique à Volet Pivotant Double LED Wall Light is also available in a white or polished inox finish. Please contact us for more information and pricing.
