## PRODUCT DESCRIPTION

**Designer:** Rikki Frost

### Le Klint Caleo 3 Pendant

The Caleo 3 is designed by Rikki Frost. The name ‘Caleo’ comes from the Latin word, which means ‘to highlight’, which the lamp does with its intricate details. Frost seamlessly blends Danish traditional lighting with contemporary design. The delicate appearance of the shade conveys a sense of weightlessness, making the pendant seem to float in the air.

The Caleo incorporates Le Klint’s DNA by utilising their signature paper shade, expertly hand-folded in Odense, Denmark. This pleated shade diffuses light into a glare-free glow that fills the room with ambient lighting. This paper shade will develop a golden patina over time. Display above a table in a dining room or lounge to illuminate the space while adding a welcoming ambience. For larger spaces, install with other pendants from the **Caleo Collection** in varying sizes and drop heights to create a captivating display.
