Hoxton Pendant Light by Innermost

Designed by Steve Jones and James Bartlett, the Hoxton pendant is inspired by the London borough of the same name, an area which is characterised by re-invention and innovation. The pendant light also draws inspiration from an industrial aesthetic, made from metal with a clean and angular lines.

The strong and functional look of the Hoxton pendant lamp makes it wonderful for many settings and is available in a black or white finish which is paired with a chic gold interior. The pendant is also available in 2 sizes, with the smaller Hoxton 17 being useful when used in multiple over tables, and the larger Hoxton 50 being wonderful for use as a main light. Use in professional and domestic spaces for a modern and contemporary look.

Dimming: Dimmable via mains phase dimming
