Astro Versailles LED Wall Light

Astro Versailles LED Wall Light is a vertical wall light for bathroom and interior use, inspired by the Versailles design style of the 1930s. Made with individual glass rods and metal end caps, it gives a structured, column-like appearance while providing functional, glare-free task lighting.

The Versailles is available in two sizes: the smaller Versailles 250 and the taller Versailles 400. The 250 works well where a more compact bathroom wall light is needed beside a mirror, along a hallway, or in a smaller cloakroom, while the 400 gives a longer lit form for larger bathrooms, dressing areas, and interior walls that need more presence. Both sizes are available in Bronze, Matt Gold, and Polished Chrome finishes.

The Versailles LED Wall Light is wired in, unswitched, and IP44 rated, making it suitable for bathroom zones 2 and 3. Its vertical glass form works well beside mirrors for glare-free task lighting, or in hallways and dressing areas where a slim decorative wall light is needed. The 250 version is dimmable using leading-edge and trailing-edge systems, while the 400 version is dimmable using trailing-edge dimming.

PRODUCT SPECIFICATION

Light Source:	**250:** 4.5W, 3000K, 320 Lumens **400:** 7.1W, 3000K, 658 Lumens
IP Code:	44
Dimming:	**250:** Dimmable using leading edge and trailing edge. **400:** Dimmable using trailing edge dimming.
Dimensions:	**250**: Height: 25cm Width: 12.5cm Depth: 8.9cm **400**: Height: 40cm Width: 12.5cm Depth: 8.9cm
