PRODUCT DESCRIPTION

Harvard Lantern Outdoor Wall Light by Astro

The Harvard Lantern wall light is a modern interpretation of the traditional lantern, made from a stainless steel structure with glass panes. The light bulb sits exposed in the box, producing an effective glow that is welcoming and atmospheric.

The Harvard Lantern wall lamp is made for the outdoors, being useful as door light or to use on walls in gardens, patios, terraces and canopies. The wall light has a textured black colour finish so can slip seamlessly into any design scheme, perfect for many settings.
