Astro Myos Outdoor LED Floor Spotlight

Astro Myos Outdoor LED Floor Spotlight is a small exterior spotlight with a simple, modern look and an architectural feel. The Textured Black finish keeps it discreet in garden and exterior settings.

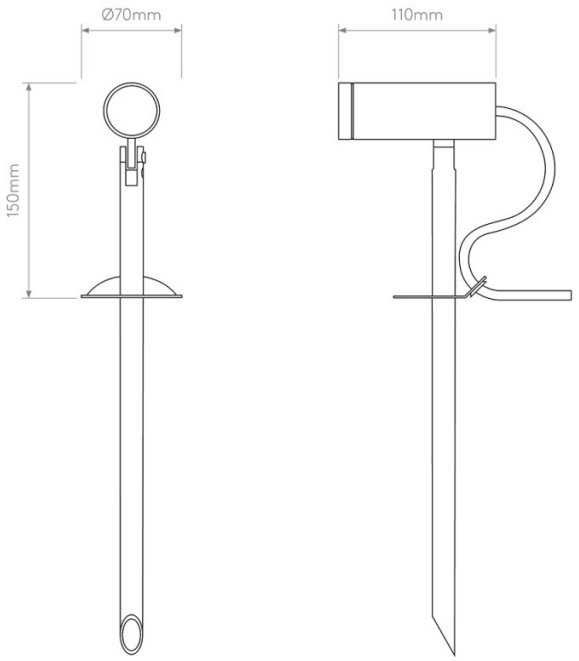

Myos has an adjustable head and a warm 3000K LED light source. It can be used to light plants, paths, entrances, and outdoor features, with a narrow beam for more focused accent lighting.

Myos is rated IP65 and requires a Constant Current 700mA driver. It can be dimmed when used with compatible control gear and can be lengthened with one or two extension poles. This product is not suitable for installation within five miles of the coast.

Best suited to garden planting, pathways, exterior entrances, hotel entrances, landscaped areas, and outdoor accent lighting.
