PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Void LED Pendant Light

The Tom Dixon Void LED Pendant draws inspiration from the metallic shades of Olympic medals and is made from metal with a highly reflective surface that appears metallic. The process of crafting the **Void Collection** is complex, each pendant is cut from a sheet of pure metal, pressed and spun, and then brazed at the end to form a double-walled shade. A stylish and luxurious pendant lamp, the Void boasts a beautiful rounded shape, with an integrated LED light source that produces a long-lasting and effective glow perfect for many settings and a stylish addition to any interior.

The Void LED Pendant Light is available in 3 gorgeous finishes, copper, brass or steel and in 2 sizes, the mini or regular. So you can find the right fit and colour for your space. You can display this luminaire in multiples or alone to suit your needs, with the pendant particularly thriving when hung over tables and surfaces.

Please Note: the LED ring of the Tom Dixon Void Pendant is non-replaceable.
