Bocci 16 Series Tree Outdoor Floor Light

The 16 Series Tree Exterior Floor Light consists of a steel structure with organic branch-like stems. These stems house numerous light sources and poured glass diffusers, resembling the leaves of a tree. The shades are created by pouring three layers of molten glass on a horizontal plane, with each layer being one-of-a-kind as they interact with each other, and are available in a variety of finishes.

The 16 Series Tree Outdoor Light is available in 4 colours: grey 1, grey 2, white 1 and white 2 and comes in several configurations with either 10, 15, 20 or 25 individual lampshades. The Series 15 Tree is suitable for outdoor use and has a base which needs to be anchored into the ground for structural integrity. The Bocci Series 16 Tree Lights provide a beautiful and unique lighting solution in exterior spaces and look particularly wonderful when bought in multiple sizes to create a forest look.
