PRODUCT DESCRIPTION

Designer: Patricia Urquiola

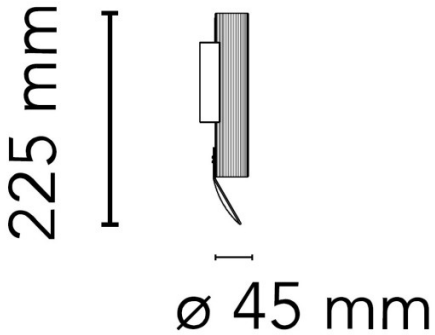

Flos Flauta Riga 1 LED Wall Light

The Flauta Riga Wall Light was designed by Patricia Urquiola, with a sleek and minimalist aesthetic that is suitable for both outdoor and indoor use, thanks to its IP65 rating. The Flauta Wall Light harnesses a cylindrical silhouette with vertical lines that are reminiscent of classical columns. The light also has an integrated LED light source that is efficient and long-lasting.

The Flos Flauta Riga 1 LED Wall Light is available in 6 colours: white, black, deep brown, forest green, grey and anthracite, so you can find the right finish for your design scheme. You can use it indoors to line hallways, corridors and kitchens as a simple light in a small space, or you can use it outdoors individually or in multiples for patios, gardens or driveways. Simple and effective, use in domestic or commercial settings.
