PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Beat Wide LED Pendant

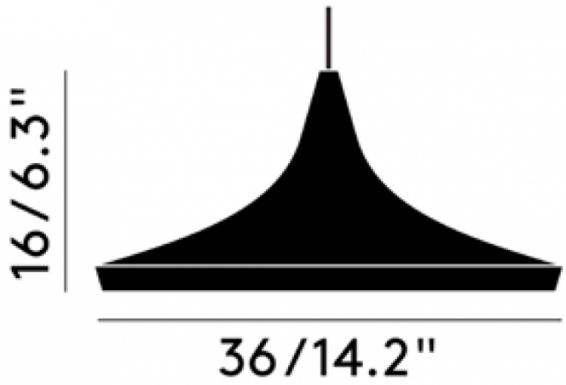

An ever-popular choice from the collection, the Beat LED Wide Pendant from Tom Dixon now boasts an integrated LED light source. The lighting output is softly projected downwards, generating a warm glow thanks to the brass interior that results in a cosy pocket of light. You can install the Beat Wide Pendant individually to highlight specific areas in any room or display them in groups or clusters for a more dramatic result.

The Beat Wide is ideal to hang above a dining area or meeting space, as the pendant provides a widespread downward light. Available in two finish options, black/brass or all brass, and easily dimmable, this luminaire offers a range of options and allows you to personalise the lighting output to suit your specific needs. This pendant is supplied with a 250cm long black cable, allowing you to install it at any desired height.

Please Note: the newer version of the Tom Dixon Beat Wide Pendant offers a replaceable LED component.
