Mini Planet LED Portable Table Lamp

The newest addition to the [Kartell Planet collection](#), the Mini Planet portable lamp brings the beauty of the range on a small and versatile scale. The LED table lamp has a battery that can be recharged, allowing the user to move the lamp to wherever they wish. The Mini Planet also has an integrated dimmer which is activated by touching the top and has 3 light settings so you can create the right atmosphere for your space.

The Mini Planet LED portable light is available in 3 chic colours, crystal, yellow and smoke, and has a gorgeous geometric aesthetic that makes the light look like a sparkling gem. Use in many settings, both at home and in commercial spaces for useful and ambient lighting that is both mesmerising and functional.
