PRODUCT DESCRIPTION

Designer: Ludovica & Roberto Palomba

Artemide Arrival LED Floor Lamp App Compatible

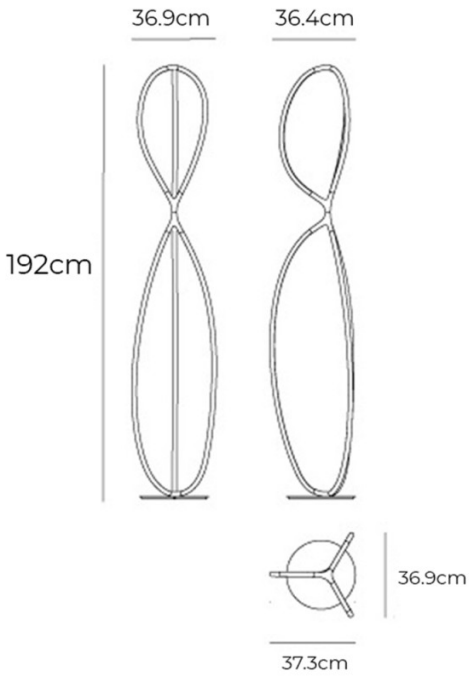

The Artemide Arrival Floor Lamp was designed by Ludovica + Roberto Palomba as part of the Arrival collection. With a graceful and dynamic silhouette, this modern floor light is characterised by three loops that interlace and interact with each other. The structure is made from metal with an integrated LED light source that is subtly fitted into the inside of each arm, diffused by silicone strips.

The Arrival LED Floor Lamp can be used in a wide variety of settings to provide ambient and functional lighting and is available in an elegant gold finish. The LED floor lamp also comes with a dimmer switch and can be controlled by the Artemide App, which allows you to create specific lighting situations and palettes easily from your phone or tablet.

Please Note: The Artemide Arrival Floor Lamp is also available in a black finish. Please contact us for more information and pricing.
