PRODUCT DESCRIPTION

Designer: Jozeph Forakis

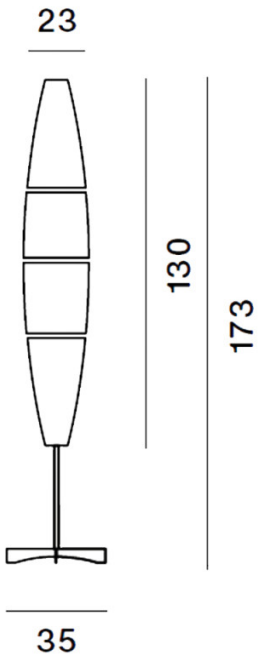

Foscarini Havana Floor Lamp

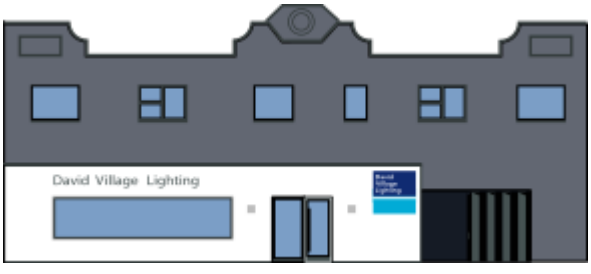

The Foscarini Havana Floor Lamp was designed by Jozeph Forakis in 1993 and is still a contemporary and modern-looking light today. Installed in a permanent collection at the New York MoMA, the Floor Lamp is made from 4 parts which are held together subtly by metal rings. The parts both diffuse the light and let it escape in bands, creating a warming effect that will create a cosy atmosphere in your space.

The Havana Floor Lamp is perfect for many spaces, looking stylish in bedrooms, lounges, dining areas and more in homes and commercial settings. Havana is available in a non-dimmable or dimmable option and with the choice of an aluminium base, which has more of a matt finish, or a chrome base, which has more of a glossy finish. Do not miss out on this classic and iconic lamp that will add a timeless touch to the room.
