PRODUCT DESCRIPTION

Designer: Marc Sadler

Foscarini Mite Floor Lamp

The Mite Floor Lamp was developed from a collaboration between Foscarini and Marc Sadler, creating an innovative patent by mixing fibreglass and carbon thread to make the lamp. The material acts as both a support and as decoration as it allows the light to escape in bands, creating a warm illumination.

The light also emits from the top, directing upwards to create a soft glow that will fill the room. The Mite floor light is available in 2 colours, black or yellow, and its minimalist design makes it eye-catching and yet unimposing. Use the floor lamp in lounges, dining areas, offices, bedrooms and many more in domestic and professional interiors.
