PRODUCT DESCRIPTION

Designer: Richard Sapper

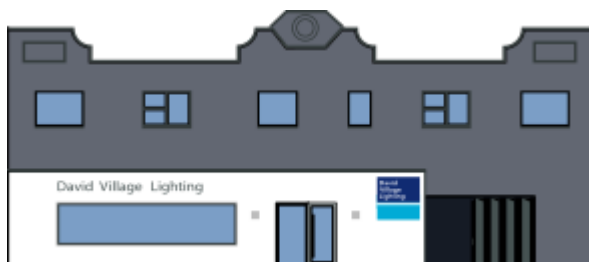

Artemide Tizio Micro Table Lamp

Artemide's Tizio was designed in 1972 by Richard Sapper. An award-winning collection, the Tizio was one of the first table lights to incorporate a halogen lamp, and because of its unique design, no cables are required - the low voltage current is simply carried along the conducting arms of Tizio itself. The counterbalance system ensures that Tizio is always in balance, and can be set in almost any position.

Tizio Micro is the smallest version in the Tizio family, ideal when space is tight. The Artemide Tizio Micro Table Lamp comes in a black finish with adjustable counterbalanced arms and head in painted aluminium. The Tizio gives direct adjustable light with two light levels. The [Tizio Collection](#) includes two larger sizes of the Table Lamp and floor stands for the larger sizes to make your Tizio Lamp even more adaptable.

PRODUCT SPECIFICATION

Light Source: 1x 2.4W 12V G4 LED (please check size of LED lamp for compatibility - excluded)
IP Code: 20
Dimming: Integrated dimmer on the product.
Dimensions: Ø 9 cm
 23-76 cm height
