Artemide

Artemide Tizio Table Lamp

Artemide's Tizio was designed in 1972 by Richard Sapper. An award winning collection, the Tizio was one of the first table lights to incorporate a halogen lamp, and because of its unique design, no cables are required - the low voltage current is simply carried along the conducting arms of Tizio itself. The counterbalance system ensures that Tizio is always in balance, and can be set in almost any position.

The Artemide Tizio Table Lamp comes in a black finish with adjustable counterbalanced arms and head in painted aluminium. The Tizio gives direct adjustable light with two light levels. The [Tizio Collection](#) includes a floor stand to make your Tizio Lamp even more adaptable.

Designer: Richard Sapper

IP Code: 20

Dimming: Two stage dimmer

Dimensions:

Ø 11 cm base

31.5-119 cm height

78-108 cm length

Colour:Black A009014
