PRODUCT DESCRIPTION

Designer: Johanna Grawunder

Flos Wan Ceiling / Wall Light

The Flos Wan Ceiling/Wall light, designed by Johanna Grawunder in 2005, is a compact, contemporary and directional lighting solution designed to be used in multiples to generate an even dispersion of light. The Wan Ceiling/Wall Light is named after the Japanese word for “bowl”, which is reflected in its curved profile and petite size. No matter where it is displayed, Wan adds a sophisticated touch to every interior.

With a body crafted from aluminium, the Flos Wan Ceiling/Wall Light is available in two colour finishes: white or black. It provides a focused, glare-free downlight thanks to the clever design of the diffuser, making it perfect for task lighting in a study or living room, or in a kitchen or dressing room as general lighting.

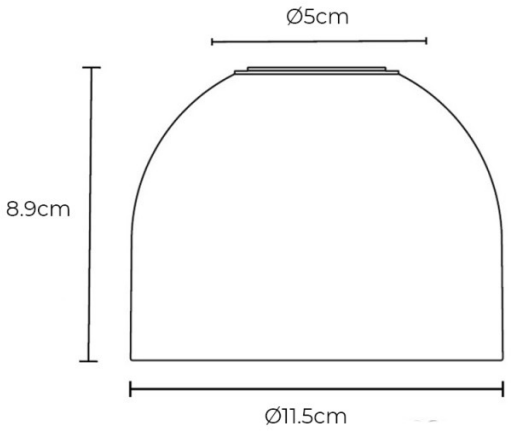

PRODUCT SPECIFICATION
