PRODUCT DESCRIPTION

Designer: Marc Sadler

Beluga Colour Wall / Ceiling Spotlight by Fabbian

Designed by Marc Sadler, the Fabbian Beluga Ceiling and Wall Light is a stunning contemporary spotlight that is small in size but creates a dramatic presence. Sadler found inspiration in the essence of matter and wanted to design a fully adjustable lighting solution that resembles varying particles in matter: protons, neutrons and electrons. This Wall/Ceiling Light is made from either crystal glass or steel, exhibiting a beautiful swirl of colours and creating a mesmerising aesthetic. This effect is incredibly playful, and adds a unique character to your interior.

The Beluga Ceiling and Wall Light comes in a range of finishes, crystal, copper, red, blue, green, yellow, white or steel, with each one adding a touch of uniqueness to your space. The size of the Ceiling/Wall Lamp means it can be installed in any type of room, being best used in multiple for functional and accent lighting. The spotlight can also be angled how you wish so you can control the light flow as you see fit.

Please note, the images show the light fitting with a PAR-20 GU10 lamp but this light source has now been replaced with a PAR-16 GU10 lamp which is slightly narrower and therefore leaves a slight gap between the lamp and the rim of the light fitting. Lamp not included.

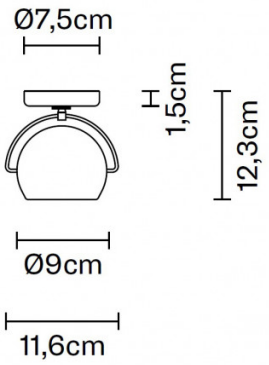

PRODUCT SPECIFICATION

Light Source: 1 x Max 50W PAR-16 GU10 LED (excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Shade: Ø9cm
Height: 12.3cm
Base: Ø7.5cm
