PRODUCT DESCRIPTION

Designer: Marc Sadler

Fabbian Beluga Pendant Light

The Fabbian Beluga Pendant offers full flexibility and personalisation of the lighting output. Consisting of a spherical shade suspended from a slender metal rod, this design by Marc Sadler is incredibly unique and was born from an interest in the essence of matter. The spherical diffusers are made to resemble the varying particles in matter: protons, neutrons and electrons.

The Beluga Pendant takes a contemporary approach to a traditional spotlight and is available in a range of finishes, either crystal, copper, red, blue, green, yellow, white or steel. The steel variation is crafted from metal, whereas the other finishes utilise a crystal glass structure. This suspended lighting solution can be displayed individually in darker corners, over bedside tables or side tables. Similarly, the Beluga Pendant can also be displayed in linear or clustered multiples over kitchen islands, countertops and dining tables.

Please note, the images show the light fitting with a PAR-20 GU10 lamp but this light source has now been replaced with a PAR-16 GU10 lamp which is slightly narrower and therefore leaves a slight gap between the lamp and the rim of the light fitting. Lamp not included

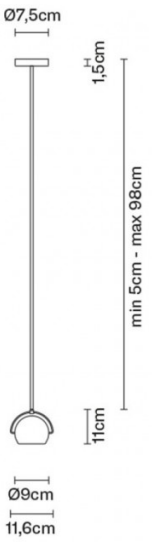

PRODUCT SPECIFICATION

Light Source: 1 x Max 50W PAR-20 GU10 LED (excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Shade: Ø9cm
Shade Height: 11cm
Ceiling Canopy: Ø7.5cm
Minimum Drop Height: 5cm
Maximum Drop Height: 98cm
