## Nebula Pendant Light by Flos

The Flos Nebula pendant light by designer Joris Laarman is an impressive and highly decorative suspension delivering a spectacular light emission. Joris Laarman is known for his experimental designs that utilise the latest technologies and the Nebula is a shining example of his unique style— named for an otherworldly cloud of space dust, it blends science and nature with remarkable results. The Nebula pendant design assisted Laarman in gaining the "Young Design Talent" by EDIDA 2008.

Delivering a diffused light, the softer ambience of the Nebula pendant lamp is created through ten glass trumpets mounted on an aluminium body. This truly show stopping lighting feature looks astounding in a double height hallway or dining room.

Designer: Joris Laarman

IP Code: 20

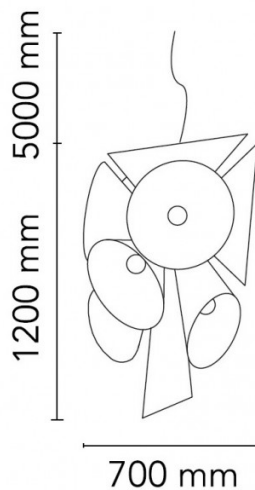

Dimming: Dimmable via mains phase dimming

Dimensions:

70cm width

120cm height

500cm cable length
