PRODUCT DESCRIPTION

Designer: Marc Sadler

Foscarini Tress Large Pendant Light

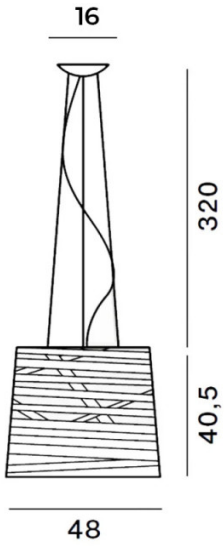

The Foscarini Tress Large Pendant is made from a special combination of resin tape and fibreglass, a new material created from the collaboration between Marc Sadler and Foscarini. The Tress Large Pendant has a wonderful woven pattern that gives it a rustic and handmade quality whilst maintaining a contemporary and modern aesthetic.

Tress emits a downward light that is perfect for hanging over tables and produces a warm glow to illuminate the space. Available in three chic colours, white, black or greige (a mix of beige and grey), this pendant light will suit many design schemes and interiors. Use alone or cluster in multiples to create a dynamic look. You can also pair with other lights from the Foscarini Tress Collection to create a consistent lighting scheme throughout your space.

The Tress Large Pendant is also available with an integrated LED light source. Please contact us for more information and pricing.
