PRODUCT DESCRIPTION

Designer: Ludovica & Roberto Palomba

The **Foscarini Fly-Fly** is an unusual suspension, with an innovative and functional shape. At first sight the **Fly-Fly** wings express a concept of lightness, but they are the result of a long research process using a single mould to obtain a product of the right size, with the ability to provide 360° illumination.

The same transparent form projects the light in the environment and also acts as a screen to avoid dazzle. This makes it even easier to place it in any room and at any height.

Foscarini Fly-Fly Diffuser - polycarbonate. Colours available: white or orange
