PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Kartell E Pendant

Part of the **E Light Collection**, characterised by simple lines and an essential design, the E Pendant brings a subtle colouration to the room. As part of Kartell Loves the Planet, their sustainability initiative, this suspension is made from transparent or mass-dyed renewable raw material. It also utilises a chrome ceiling rose and has an adjustable drop height between 20cm and 220cm.

The Kartell E Pendant is available in transparent colours of crystal, rose yellow, green and light blue and in two matte colours of solid white and black. The light works perfectly both commercially and at home, and the variety of finishes means that you can purchase several to create a fun and striking colour scheme. The adjustable height allows you to create light clusters resulting in a dynamic and eye-catching shape which could work well as an interesting but subtle spotlight, a showstopping feature light or as a ceiling-covered masterpiece.
