PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Kartell Toobe Floor Lamp

Based on an innovative method, the Toobe Floor Lamp by Ferruccio Laviani was the first to be made with a PMMA extruded tube. This technique creates a smoked, faded effect on the top part of the tube, which allows for a special diffused light within the tubular body. The resulting illumination is perfect for creating a cosy corner in living rooms, dining areas and bedrooms. Toobe is also a great choice for commercial settings such as hotels, restaurants and bars.

A small opening on the tube functions as a handle, allowing you to transfer the lamp easily and efficiently. The Kartell Toobe Floor Lamp emits a soft and warm light and adds a subtle hue to the room; it is also available as a **Table Lamp**. The design is also supplied with an energy-saving light bulb, with the ability to last up to 10x more and consume 5x less energy.

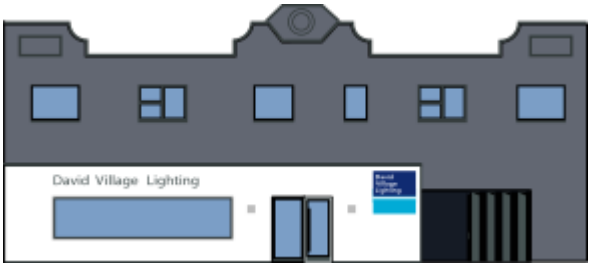

PRODUCT SPECIFICATION

Light Source: 1 x Max 15W E27 LED (Included)

IP Code: 20

Dimensions: Ø20cm
Height: 170cm
