PRODUCT DESCRIPTION

Designer: Piero Lissoni

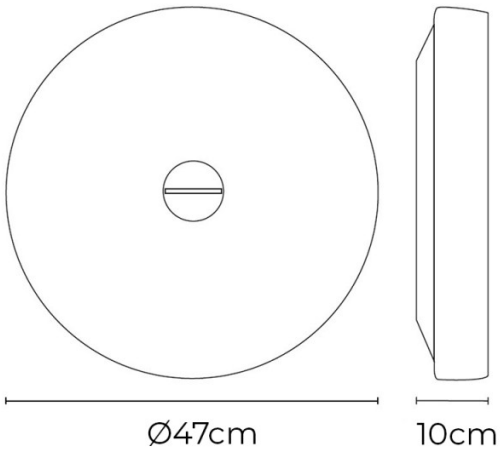

Flos Button HL Ceiling / Wall Light

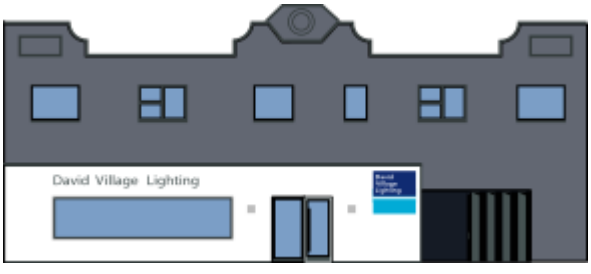

A larger companion to the **Flos Button Mini**, the Button HL wall/ceiling light is a versatile luminare suitable for both wall and ceiling mounting. Designed by Piero Lissoni for Flos in 2004, the Button HL's aesthetic is guided by creating more from less, appearing uncomplicated while performing a versatile function. Button can adapt to a range of interiors and personal styles thanks to it's elegant and minimalistic opal glass finish, which also assists in diffusing the inner light source.

Providing a direct yet diffused illumination, the simplistic Button Ceiling/Wall Light is ideal for illuminating hallways, stairs and entrances, whilst its IP40 rating allows it to be used in bathrooms and wet rooms. It makes a statement whether displayed individually or in multiples and is also an excellent way to brighten up commercial interiors.
