Verpan Fun 2DM Pendant

The Verpan Fun 2DM Pendant is a compact design classic by Verner Panton, first introduced in 1964. Suspended from a two-ring chrome-plated metal frame, delicate seashell discs cascade in layers, gently filtering light while creating a subtle play of reflection, movement and shadow. When moved, the discs emit a soft chiming, filling the surrounding space with a sense of life.

The Verpan Fun 2DM Pendant adds a decorative presence to interiors, even when not in use. Its natural mother-of-pearl shade gives each pendant a unique, shimmering character, making it a striking choice for dining rooms, hallways, bedrooms and living areas. Install with other pieces from the **Fun Collection** for an elegant display that celebrates a classic design from one of Denmark's most influential designers.
