PRODUCT DESCRIPTION

Designer: Verner Panton

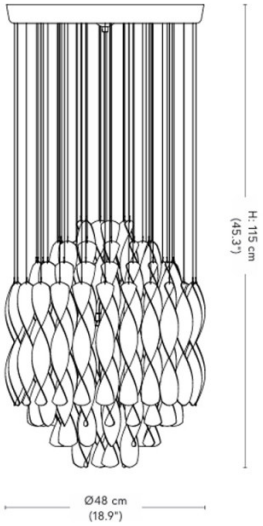

Verpan Spiral SP1 Pendant

The Verpan Spiral SP1 Pendant is a striking design from Verner Panton that brings movement, reflection and sculptural drama to interiors. Crafted from a cascading cluster of spirals, the pendant catches the light from every angle, creating a shimmering effect that changes with its surroundings. Suspended from fine nylon strings and finished with a matching ceiling canopy, the SP1 is both playful and sculptural, making it an eye-catching focal point for dining rooms, stairwells, lounges and entrance halls.

The Verpan Spiral SP1 Pendant is a playful exploration of movement, sound, and light. Its spiral form creates a sense of constant motion, gently moving in the air to produce a soft, almost musical noise. When illuminated, the pendant casts a warm, atmospheric light that is diffused through the spiral elements. The polished surfaces reflect light for a shimmering effect with a sense of depth. This dynamic lighting changes depending on the angle it's viewed, allowing the SP1 Pendant to function as both an ambient light source and a sculptural attraction.

PRODUCT SPECIFICATION

Light Source:	1 x Max 60W E27 (Excluded)
IP Code:	20
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Height: 115cm Ø48cm Cable Length: 400cm
