PRODUCT DESCRIPTION

Designer: Verner Panton

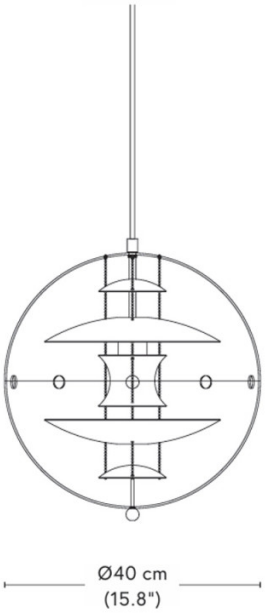

Verpan VP Globe Brass Pendant

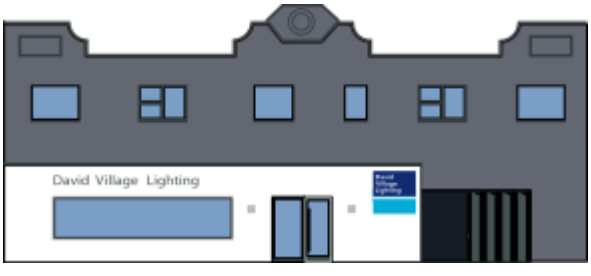

The Verpan VP Globe Brass Pendant is an iconic lighting design that combines sculptural form with practical functionality. Designed by Verner Panton, its distinctive transparent acrylic sphere houses a series of brass reflectors, suspended from steel chains. The warm brass finish adds an elegant touch, making it an eye-catching centrepiece above dining tables, kitchen islands, or coffee tables.

Perfectly balancing bold design with functional illumination, the VP Globe Brass Pendant casts a soft, atmospheric glow. Its versatile silhouette complements both modern and classic schemes, while the intricate internal construction showcases Panton's approach to playful, expressive lighting. Display individually or in multiples to add character, warmth, and a sense of occasion to any space.
