## PRODUCT DESCRIPTION

**Designer:** Ernesto Gismondi

### Artemide Miconos Wall Light

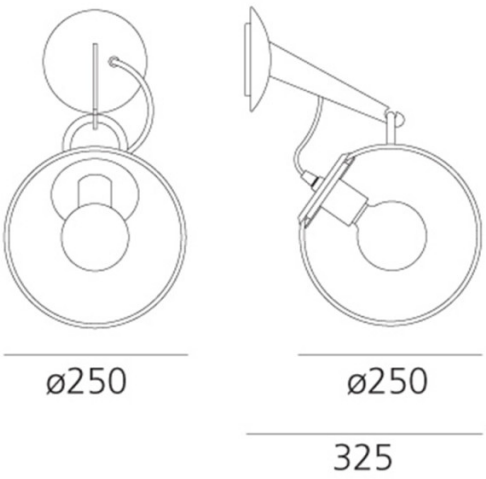

Artemide Miconos Wall Light brings the Miconos composition onto the wall, where the frame supports the transparent diffuser and keeps the light source in plain view. Designed by Ernesto Gismondi, it relies on that exposed arrangement to become an ever-stylish and topical icon with a very direct kind of simple beauty.

The blown plate-glass diffuser leaves the bulb visible, and the brass and steel frame gives the fitting its structure without making it feel bulky. With diffused and direct emission, the light moves out into the room rather than staying tight to the wall, which gives the fitting a more open character.

Artemide Miconos Wall Light is available in Satin brass and Polished chrome. Its depth gives it more presence than a flatter wall light, but the clear glass keeps the overall effect light and balanced. Best suited for hallways, bedside settings, living spaces, and other interiors where wall lighting can provide illumination with a more visible focal point.

## PRODUCT SPECIFICATION

| | |
|---|---|
| **Light Source:** | 1 x Max 12W E27 LED (Excluded) |
| **IP Code:** | 20 |
| **Dimming:** | Dimmable via mains phase dimming. |
| **Dimensions:** | Shade: Ø25cm<br>Depth: 32.5cm |
