PRODUCT DESCRIPTION

Designer: Carlotta de Bevilacqua

Artemide Altrove 600 Ceiling / Wall Light

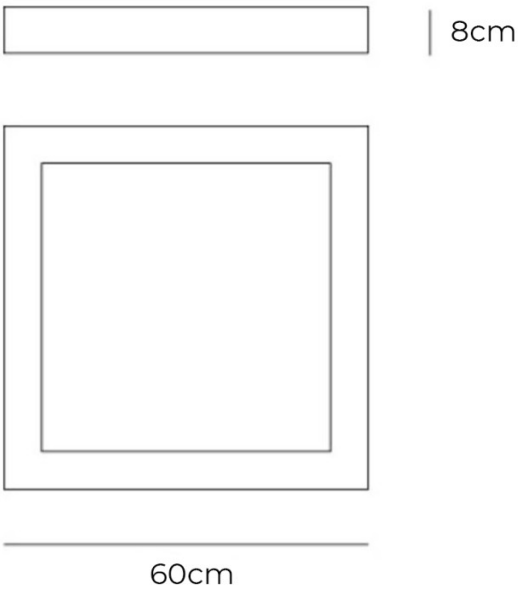

The Artemide Altrove 600 is a unique design by Carlotta de Bevilacqua, which creates a play of light and reflection. Utilising a square mirrored steel frame and prismatic diffuser, the Altrove creates an illusion of space when installed, providing the feeling of a larger environment. You can install this lighting solution either on your wall or ceiling, and you can choose to install more than one together to form a dramatic, reflective surface.

An ultra-modern design, this luminaire provides functionality and eye-catching aesthetics all in one. The Artemide Altrove 600 Ceiling/Wall Light is an ideal light for office spaces, especially open working areas or large corridors, but you can also use it for larger residential interiors in any room.

Please Note: The Artemide Altrove is also available in a larger size, which offers app-compatible control. Please contact us for more information and pricing.
