PRODUCT DESCRIPTION

Designer: Louis Poulsen A/S

Louis Poulsen Toldbod Glass Pendant Light

This is the glass version of the **Louis Poulsen Toldbod Pendant** , which was released in 2002 as a tribute to the PH Ellipse reflector, the last light Poul Henningsen ever designed. The Toldbod Glass Pendant emits a direct downward light with no glare, and the three-layer glass allows for an evenly lit surface, creating a warm ambience throughout the room. This luminaire is suitable for many spaces and can be used as both a task light and for general atmospheric lighting.

The Toldbod Glass Pendant Light is available in 2 sizes, so you could install a single pendant or create a line or cluster using both sizes. The pendant has a beautiful, simple and classic design, making it perfect for both homes and commercial spaces. This pendant lamp will never go out of style and is a wonderful choice for all your lighting needs.
