PRODUCT DESCRIPTION

Designer: Poul Henningsen

Louis Poulsen PH 4½-3½ Glass Floor Lamp

The Louis Poulsen PH 4½-3½ Glass Floor Lamp is made using a 3-layered lampshade that Poul Henningsen designed in 1925-26, based on a logarithmic spiral. The shade consists of three sheets of glass and acts to diffuse the light as it moves upwards, creating a glow that is both effective and soft. This elegant floor lamp also boasts a sleek chrome finish stem and base, which creates a striking contemporary look.

The PH 4½-3½ Floor Lamp can be used in many settings, such as lounges, reception areas and dining rooms and will create a warm ambience whilst providing a needed illumination. Both a vintage and modern design, this floor light can be used in both domestic and commercial interiors.
