Fritz Hansen Mondrian Table Lamp

LA8629

SOURCE: <https://www.davidvillagelighting.co.uk/product/Fritz-Hansen-Mondrian-Table-Lamp/5924>

PRODUCT DESCRIPTION

Designer: Cecilie Manz

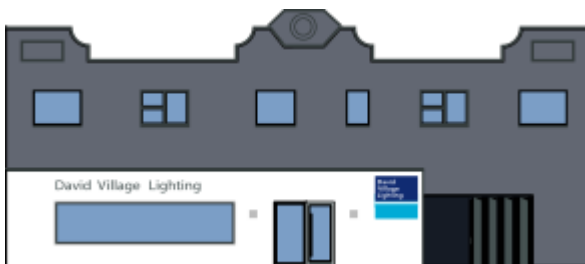

This Lamp is discontinued but is still available whilst stock lasts.

Minimalist design was the driving force for designer Cecilie Manz in her development of the lamp series, Mondrian.

Mondrian is constructed of steel bar and pipe, and moulded parts. To prevent glare, the lamp housing is moulded with a collar around the light source. The translucent ring in moulded acrylic insulates the heat from the outermost section of the lamp head. The ring lights up when the lamp is on, and indicates how to adjust the light. Mondrian's light can be directed 180 degrees horizontally and 335 degrees vertically.

Mondrian lamps provide a direct, adjustable light. The lamp housing has a reflector that deflects heat and increases luminosity. This effect is further enhanced by using halogen bulbs with built-in reflectors.
