PRODUCT DESCRIPTION

Designer: Hans Sandgren Jakobsen

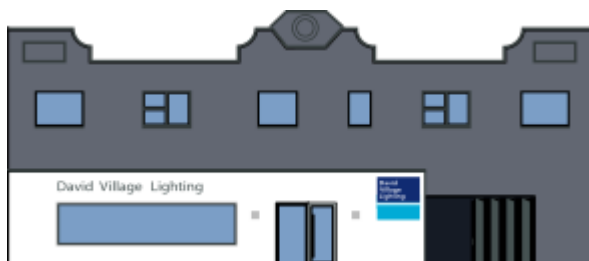

Radon Wall Light by Fritz Hansen

We currently have limited stock of one of these items in our sale. Please visit our ["Sale"](#) section for more information.

Hans Sandgren Jakobsen designed the [Fritz Hansen Radon collection](#) to express a geometric and simplistic aesthetic and the Radon wall light is no exception. This intriguing and modern wall light sits on the wall and can be angled between 0° (flush against the wall) and 90°. This makes the light very versatile as you can direct the light where you need. The shade also has a reflector so the light spreads evenly against surfaces.

The Radon wall lamp is characterised by a circular form and a hemi-spherical shade. This wall lamp is also available in 1 colour, alba white, which is a subtle yet contemporary choice for your interior. Suitable for homes and offices, it can be used to line the walls in your lounge, dining room and bedroom or can be used in corridors and hallways to add a chic touch.
