PRODUCT DESCRIPTION

Designer: Adrien Gardere

Artemide Melampo Table Lamp

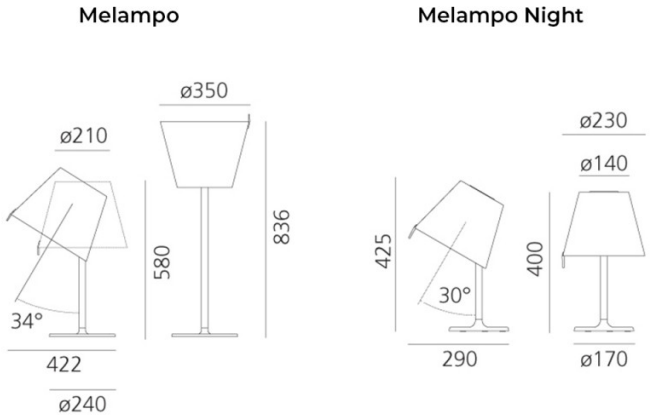

Artemide Melampo Table Lamp is available as the main table version and the smaller Melampo Night, both designed by Adrien Gardère with the same simple and elegant look. Across the range, the fitting combines a painted zamac base, a painted aluminium stem, and a silk satin fabric diffuser on a technopolymer frame.

The movable diffuser changes how the light works in the room, giving diffused and direct light as well as indirect light depending on its position. Melampo Table adjusts in three different positions, while Melampo Night adjusts into two, so each version keeps a more flexible character than a fixed table lamp.

Artemide Melampo Table Lamp is available in Grey or Bronze Ecrù finishes across the range, with the same softer appearance carried through both sizes. Best suited for desks, side tables, bedside tables, and reading corners where adjustable light is needed without losing a softer ambient effect.
