PRODUCT DESCRIPTION

Designer: Michele De Lucchi & Gerhard Reichert

Artemide Logico Wall Light

Artemide Logico Wall Light can be used on its own, but the shape also lends itself to longer linear runs. The light is both diffused and direct, so it does not stay tight to the wall alone. The blown glass keeps the effect soft, and the steel structure holds the fitting in place.

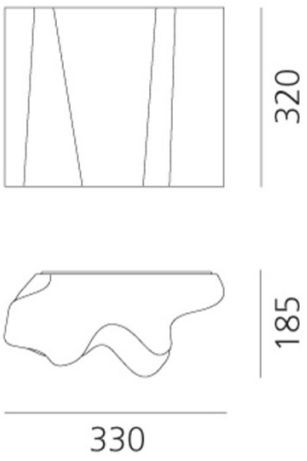

Because the geometric shape is modular for linear compositions, it can work as a single wall light or as part of a repeated run. The combination of diffused and direct emission helps it throw light out into the room while keeping the effect softer at the surface, and the blown glass with steel construction stops it from feeling too heavy.

Best used in hallways, living rooms, and bedrooms, where wall lighting can add atmosphere without becoming purely decorative.

Please note, this product is also available in a Fumè finish and as smaller Mini and Micro versions. Contact us for pricing and information.

PRODUCT SPECIFICATION

Light Source:	2 x Max 12W E27 LED Dimmable (Excluded)
IP Code:	20
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Width: 33cm Height: 32cm Depth: 18.5cm
