PRODUCT DESCRIPTION

Designer: Marc Sadler

Fabbian Beluga Double Ceiling / Wall Light

A larger adaptation of the classic **Beluga Ceiling/Wall Light**, this lighting solution features two spherical and adjustable shades available in a range of finishes - choose from red, yellow, blue, copper, green, white or steel. The Fabbian Beluga Double Ceiling/Wall Light is crafted from polished metal and crystal glass and provides its user with freedom of choice when it comes to the orientation of the illumination.

The Fabbian Beluga Double can be ceiling or wall-mounted and is a great addition to hallways, kitchens, a study and even in a bedroom as a focused reading light. Similarly, the Beluga Spotlight is a helpful compliment to commercial areas in the hospitality sector. Thanks to the adjustable shade the illumination of the Beluga can be easily focused in order to create a functional task light, and can be easily dimmed to personalise your atmosphere.

Please note, the images show the light fitting with a PAR-20 GU10 lamp but this light source has now been replaced with a PAR-16 GU10 lamp which is slightly narrower and therefore leaves a slight gap between the lamp and the rim of the light fitting. Lamp not included
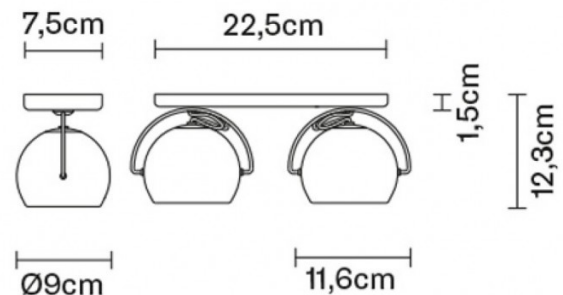

PRODUCT SPECIFICATION

Light Source: 2 x Max 50W PAR-16 GU10 LED (excluded)
