PRODUCT DESCRIPTION

Designer: Verner Panton

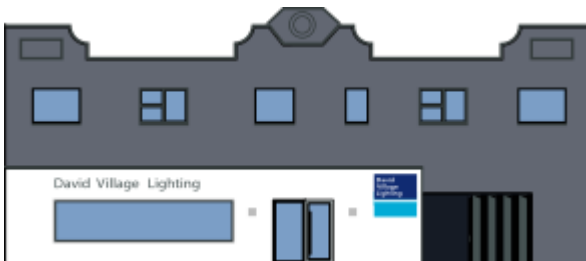

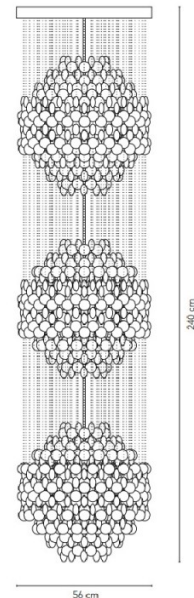

Verpan Fun 3DM Suspension

The Verpan Fun 3DM Suspension light was designed by critically acclaimed designer Verner Panton who aims to combine functionality and imagination without compromising quality. The Verpan Fun 3DM Suspension lamp is one of Verner Panton's more elaborate designs with three hanging seashell shades. These shades are elegantly strung using delicate metallic chains which link each individual seashell disc.

This intricate ceiling lamp not only creates a strikingly beautiful visual feature but also casts a diffused light which floods a room. This is due to the unique way in which light passes through the seashell discs. Whilst diffusing the light, the seashell material also provides a generous outpouring of light throughout the space.
