## PRODUCT DESCRIPTION

**Designer:** Verner Panton

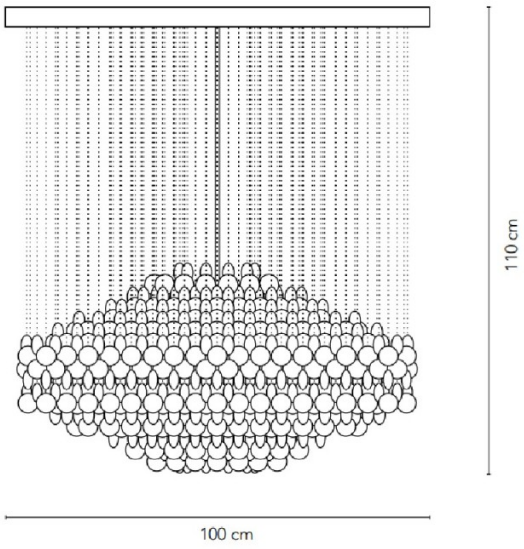

### Verpan Fun 7DM Suspension

The Verpan Fun 7DM Suspension, designed in 1964, is part of the **Fun Collection**, widely regarded as one of Verner Panton's greatest masterpieces. Panton's playful approach to design and enthusiasm for new materials are beautifully reflected in the Fun 7DM Suspension. Cascading mother-of-pearl discs are suspended from delicate-looking stainless-steel chains, creating an elegant yet commanding presence.

When illuminated, the seashell discs filter and reflect light, creating a shimmering effect and atmospheric lighting. The suspension not only provides dynamic lighting but also interacts with the surrounding space, producing a melodic chime when moved. The Fun 7DM Suspension can be installed in residential and commercial spaces alike. Display it above dining tables, in living rooms, or in hospitality settings to add a touch of timeless elegance.
