PRODUCT DESCRIPTION

Designer: Ernesto Gismondi

Artemide Nur Pendant Light

Artemide Nur Pendant Light is available in Anodised Aluminium and Anthracite Grey across the standard range, with Gloss White and Gloss Black on selected Nur and Nur Mini versions. The design is consistent across the range, but the different finishes and sizes slightly change its character once installed. Best suited for dining tables, kitchen islands, living spaces, and commercial interiors where a pendant is needed for general ambient lighting with a clear, defined presence.

The main distinction in this page is between standard and gloss finishes, and between the broader Nur body and the smaller Nur Mini. Gloss models have a perfectly smooth and polished finish, and all Gloss versions are encased in a diffuser at the bottom, which slightly changes the reading of the lower edge.

Artemide Nur Pendant Light is available in Anodised Aluminium and Anthracite Grey across the standard range, with Gloss White and Gloss Black offered on selected Nur and Nur Mini versions. The same basic design runs through the whole page, while the different finishes and sizes give each version a slightly different feel once installed. Best suited for dining tables, kitchen islands, living spaces, and commercial interiors where a pendant is needed for general ambient lighting with a clear overhead presence.

Please note, A colour filter is available to purchase separately for the Artemide Nur Mini Pendant Light. [Contact us](#) for pricing and information.
